AND WHAT IS YOUR STORY, DEAR FRIEND?

This autumn in Poland is the time of celebrating the 100th anniversary of the restoration of Poland's sovereignty (11th November).

In our school library we tried to focus on history, education and literature.

What is a period of 100 years in human life, in literature, in education?

What did young people read a 100 years ago? What and how did they learn and play?

How can we describe our times, books and other media we are enjoying nowadays?

What would we like to say to people who will live in a 100 years?

Will we become history?

What is your story, dear friend?

We asked our young readers this kind of questions, using old books, an exhibition of history books "Neverending story" and a collection of digitized books shared by Polona – Polish digital library and the National Library of Poland.

We would like to share our questions with other young people in the world, no matter how different our answers can possibly sound.
