

Questionnaire evaluation: Three-generation family tree of trades and jobs

1. What is your gender:

a./boy

b./girl

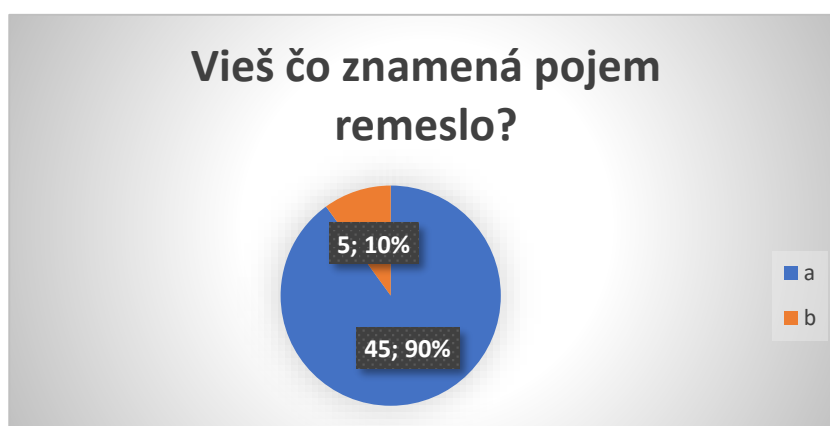

Of the 50 students present who filled in the questionnaire were 70% of the girls and 30% of the boys.

2. Do you know what the trade concept means?

a. / small-scale production based mainly on manual labour

b. /activity related to the use of other work than manual

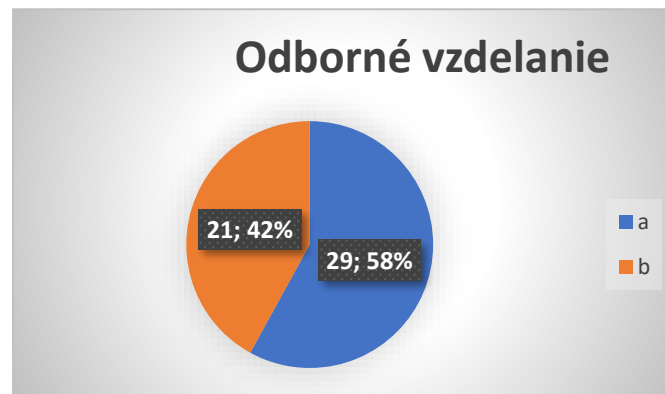

Most students know (90%), what trade means and what is involved.

3. Is there a need for vocational training for trade production?

a. / yes

b. / no

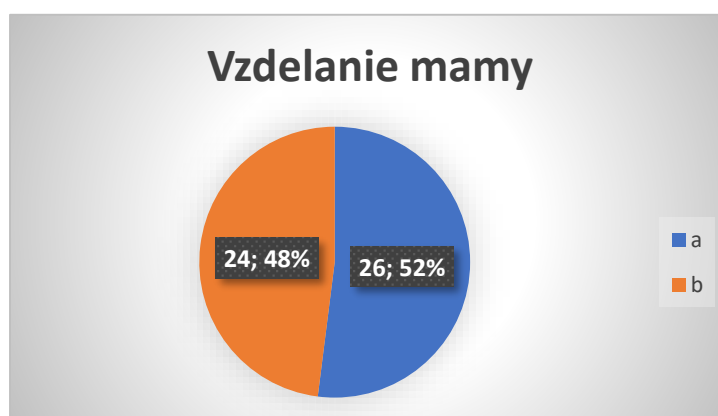

Most pupils think that there is a need for vocational training related to trades and 21% think that there is no need for vocational training to carry out trade.

4. Does your mother have a professional education?

a. / yes

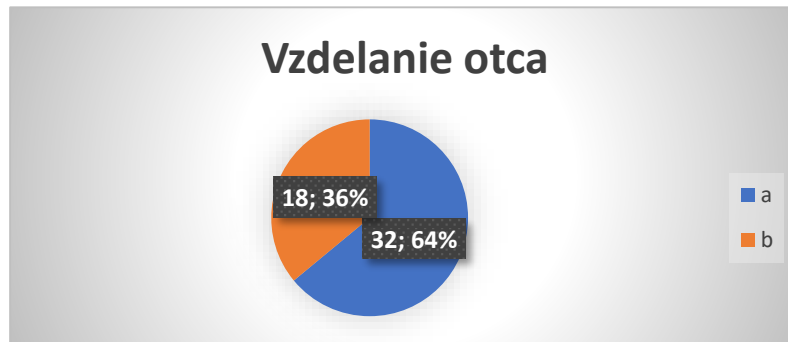

b. / no

5. Does your father have a professional education?

a. / yes

b. / no

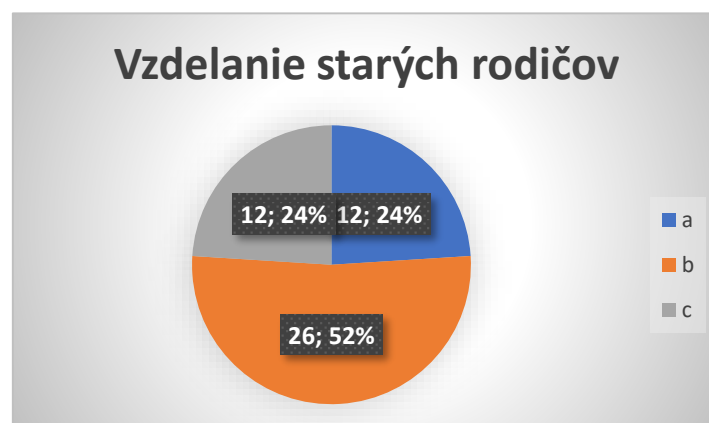

For these questions, the students stated that most of the parents had a vocational education.

6. Are your grandparents mostly tradesmen?

a. / yes

b. / in the same ratio

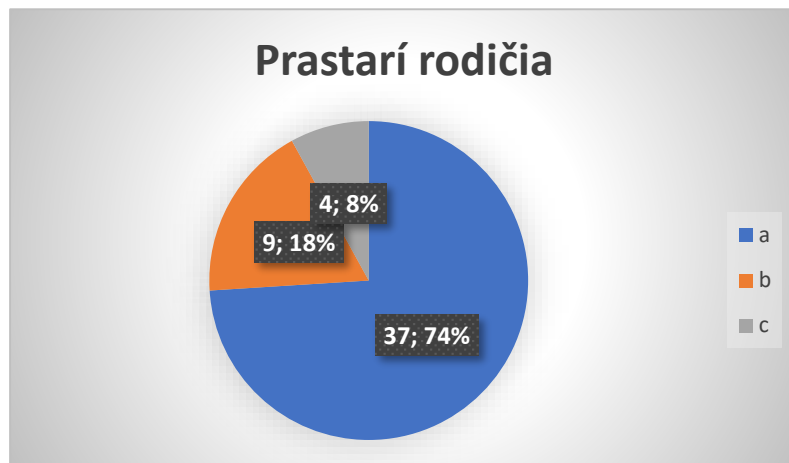

c. / no

This graph shows that most of the grandparents were tradesmen.

Your great grandparents were mostly tradesmen

- a. / yes
- b. / in the same ratio
- c. / no

The great grandparents were tradesmen in the families of students with great predominance.

8. Which trades do you like most in the family and why?

Replies:

Roofer - because I did not even know it was a trade

Stove contractor - because the stoves can be made

Metallurgist - because it's interesting

Cook - because I like helping with cooking

Tailor - because it is a very creative work, one has to have an accurate estimate

Joiner/Carpenter - because I enjoy working with wood

I like the trade of coachman - the horseman, which I did not know anything about. It was nice to find out something about it, to get close to it as I did not have the opportunity before.

Sewing folk costumes - because they were made by my great grandmother

9. Are you considering professional education?

a. / yes

b. / no

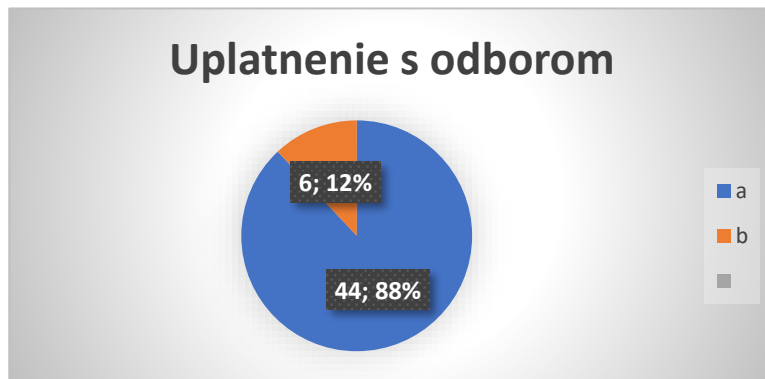

As a result, the vast majority of students surveyed are considering vocational training.

10. Is there a job opportunity for a trade job nowadays?

a / yes

b. / with problems

c. / hardly

Up to 88% of students think there is a job opportunity in a company with vocational education.

11. What profession do you want to do and why?

Replies:

Chef - because I like food and I like to cook

Designer - because I have liked arts since I was little and I can not imagine that there would not be art as part of my future

Carpenter - I enjoy working with wood

Beautician - make people feel and look better

Dentist - I want to be different in the family by my education, because everyone in the family has the same education

The questionnaire revealed that the students learned a lot, gained new knowledge not only about trades and occupations in the family but they were thinking about the direction in which their future education should advance.

Až 88% žiakov si myslí, že existuje uplatnenie sa v spoločnosti s odborným vzdelaním.
